SAFETY STATION

A wall-mounted central hub for emergency response, featuring an Automated External Defibrillator (AED), a Large First Aid Kit, and an Eyewash Station. Designed to make safety a top priority in your business environment.

The station's highly visible design ensures it's easily identifiable in emergencies, allowing for quick and efficient response. This all-in-one solution simplifies your first aid and emergency preparedness, consolidating multiple safety needs in one place.

FIRST AID STATION

FOR EMERGENCY, CALL 911

POWERED BY **ALSCO UNIFORMS** **SureScan** rescoring system

*AEDs available individually or combined in the Safety Station.
