PROTECTIVE WEAR FOR EVERY HAZARD

UNIFORM NEEDS

When you rent uniforms through AlSCO Uniforms, you will need enough changes of the uniform to ensure your employees always have a clean uniform. For example, if your employee needs a clean shirt five days of the week, you will be issued a total of 11 shirts for that employee. All you have to do is turn everything in—we'll handle the rest!

Laundering Process

- 5 shirts for each day of use during the week
- 1 shirt your employee is currently wearing
- 5 shirts from last week that are out for laundering

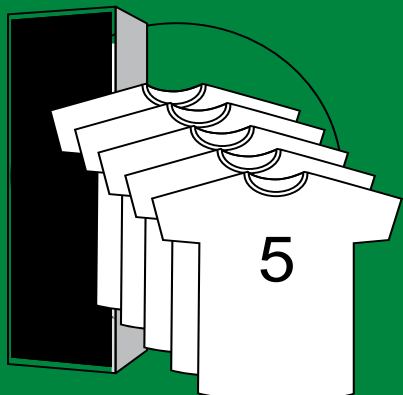

Are your employees wearing the right gear?

Depending on the line of work you're in, there are a number of dangers you may face on the job. AlSCO Uniforms is ready to provide your business with the **best protective clothing for your needs**.

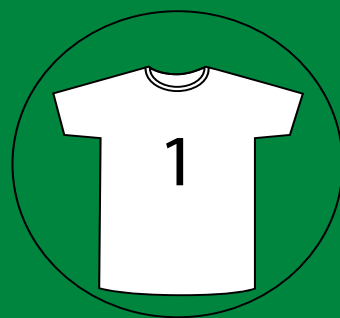

We understand that **FR and PPE apparel** needs to look and feel as good as it protects, so we work with the best in the industry. Whether you need protection from a **flash fire** or an **arc flash**, or whether you have need to protect yourself in situations where you need to be seen to be safe, AlSCO Uniforms has what you need to stay safe and protected with our extensive Bulwark and Red Kap uniform collection.

When real lives are on the line and corporate reputations are at stake, **turn to AlSCO Uniforms**.

UNIFORMS WITH COMBINED PROTECTION

PROTECTION
FROM
EVERY
ANGLE

Get dual protection with our extensive Bulwark protective collection. Our uniforms will help protect employees against the risk of both potential workplace flash fire and arc flash hazards.

All products in this catalog are certified and compliant with the following National Fire Protection Association (NFPA) standards:

NFPA 70e is the industry consensus standard for electrical safety in the workplace, and provides employers with guidance for assessing potential arc flash hazards and selecting the appropriate arc-rated clothing for protection against dangerous potential garment ignition accidents due to exposure to workplace arc flash hazards.

NFPA 2112 is the industry consensus standard related to the assessment and FR clothing selection, care and maintenance for protection against potential workplace FLASH FIRE hazards. All the Bulwark FR garments in the AlSCO Uniforms Safety Catalog provide safety professionals with the assurance that they have been UL 3rd-Party Certified at the garment level to warrant the “NFPA 2112 Compliant” certification.

OSHA recognizes **NFPA 70e** and **NFPA 2112** as the trusted source to help employers with details on how to protect employees from the risk of serious injuries and fatalities resulting from exposure to potential workplace hazards such as electrical arc flash (NFPA 70e) and flash fire (NFPA 2112). Adherence to the guidance contained within these long-tenured industry consensus standards also provides increased assurance to employers that they are complying with OSHA Coded Federal Regulations.

HI-VISIBILITY CLOTHING

TYPE R CLASS 3 & 2 SHIRTS

In working environments where lighting can range from well illuminated to dark, visibility of the worker can mean the difference between safety and workplace injuries, even fatalities.

AlSCO Uniforms offers three performance classes of garments and identifies garment types based on expected use settings and work activities being performed. These are designated as off-road (type O), roadway and temporary traffic control (type R).

HI-VISIBILITY TYPE O CLASS 1

Intended for use in environments where there is a hazard of being struck by moving vehicles, equipment and machinery that are not operating on public access rights of way or temporary traffic control zones.

HI-VISIBILITY TYPE R CLASS 2

Intended for use by personnel exposed to vehicular traffic from public access rights of way or roadway temporary traffic control zones. Class 2 garments require the use of greater amounts of high-visibility materials that help distinguish between a human and an inanimate object.

HI-VISIBILITY TYPE R CLASS 3

Intended for use by personnel exposed to vehicular traffic from public access rights of way or roadway temporary traffic control zones. Class 3 garments mandate an even higher standard of visibility for workers in moving, complex backgrounds.

UNIFORM SHIELD

PROGRAM

ARE YOU TIRED OF BUDGET-BUSTING EMPLOYEE UNIFORM CHARGES?

Employees are often hard on their uniforms — with regular and unexpected wear and tear from daily and seasonal use, equipment and demanding environments. Yet fluctuating weekly uniform costs can be hard on your balanced budget. **Our Uniform Shield program protects your business** with a pay-as-you-go, no surprises, set weekly fee. And because your invoices for uniform expenses are predictable from month to month, you can run your business more efficiently and effectively.

THEIR WAY

THE ALSCO UNIFORMS WAY

SLIP-RESISTANT MATS

Protect your employees, customers and floors with our inventory of slip-resistant mats. For added value, make full use of our logo and message mat options to highlight your brand or safety fixtures and devices.

CUSTOM LOGO & SAFETY MATS

AlSCO Uniforms carries a large variety of standard safety mats. With our custom logo mat services, we can provide mats with any design you desire to help keep your team safe and safety conscious throughout their day.

- Keep your team safe.
- Reduce accidents.
- Keep your floors clean.
- Increase your professional image.

MOPS

Mops do more than keep your floors looking fresh and clean. They protect your business from harmful dirt and particles. Have clean mops delivered directly to your facility each week.

WHY RENT MOPS?

Mops that are not cleaned regularly spread dirt and bacteria. Renting mops means you never again have to source costly mops or spend time breaking in, cleaning and replacing mops.

Our service provides fresh mops every week with no up-front costs to purchase equipment. We take care of the replacements for you, hardware included.

CHOOSING THE MOP THAT'S RIGHT FOR YOU

How big an area needs to be mopped? Is cross-contamination a factor? Do you deal with light or heavy soil?

These are all considerations in finding the right mop for the job. Let AlSCO Uniforms help keep your floors fresh and dust free with our wet and dry, classic and microfiber mops.
